

# The True Meaning of the Rollout

Energy imbalance is a major underlying cause of illness within the body. The 'Rollout' is performed by rolling a very unique magnetic massage device down the spine, along the acupuncture meridians, energizing the body and immediately improving body balance.

The rollout demonstrates the capability of a magnetic product to immediately balance the energetic fields of organs and glands, leading to improved muscle balance, improved structural stability and decreased discomfort.

Demonstrations on people confirm immediate results.
